

Financial Futures LLC (IARD #128900) Client Relationship Summary as of February 23, 2021

Item 1. Introduction

Financial Futures LLC (“Financial Futures”) is an investment adviser registered with the Securities and Exchange Commission (“SEC”). Brokerage and investment advisory services and fees differ. It is important for you to understand the differences. Free and simple tools are available to research firms and financial professionals at [Investor.gov/CRS](https://www.investor.gov/crs), which also provides educational materials about broker-dealers, investment advisers, and investing.

Item 2. Relationships and Services/ What investment services and advice can you provide me?

We primarily offer discretionary investment advisory services to retail investors, retirement plans and IRA accounts. Financial Futures primarily allocates client’s investment assets among exchange traded funds and mutual funds. Financial Futures also provides financial planning and consulting.

“Discretionary” means the client authorizes us to place trades in their account without notifying them in advance. In limited situations, we maintain non-discretionary authority which means we have to obtain client approval prior to placing a trade.

Financial Futures prepares a financial plan that may include, but is not limited to: a net worth statement; a cash flow statement; a review of investment accounts, including reviewing asset allocation and providing repositioning recommendations; strategic tax planning; a review of retirement accounts and plans including recommendations; a review of current debts and recommendations for changes, if applicable; a review of insurance policies and recommendations for changes, if necessary; one or more retirement scenarios; estate planning review and recommendations; and education planning with funding recommendations.

The investment philosophy, process, substantial education, and financial planning help our clients understand and implement the plan personally created for them. We offer annual plan updates and provide clients with online access to view investment accounts. Clients may book calls, video meetings or in-office meetings with any questions or concerns. We monitor investment accounts and generally only trade when our investment committee advises a change, you request a withdrawal or deposit cash, or your investments allocation drifts from the model.

Financial Futures does not maintain a minimum account size threshold.

You may also wish to ask us:

- **Given my financial situation, should I choose an investment advisory service? Why or why not?**
- **How will you choose investments for my portfolio?**
- **What is your relevant experience, education and other qualifications? What do these qualifications mean?**

Item 3. Fees, Costs, Conflicts, and Standard of Conduct/What fees will I pay?

We bill most clients an ongoing asset-based fee, charged quarterly in arrears. These fees are within a range of 0.125% to 0.25% (quarterly) on assets under management. You may incur transaction costs and custody fees in addition to our management fee. In the event an Independent Manager is selected, their fee will be in addition to our management fee. You may also pay the custodian for things like wire transfers, check printing, overnight mail services, etc. Some investments, such as mutual funds and ETFs, impose additional fees that will reduce the value of your investments over time.

For consulting and financial planning, Financial Futures will charge a fixed or hourly fee. Depending on the size and complexity of the engagement, fixed fees can range from \$2,500 - \$5,000 and the hourly rate is \$300. More information is available in Item 5 of our Firm Brochure.

You will pay fees and incur costs whether you make or lose money on your investments, and these will reduce any amount of money you might earn over time. Please make sure you understand what fees and costs you are paying.

You may also wish to ask us:

- **Help me understand how these fees and costs might affect my investments. If I give you \$1,000,000 to invest, how much will go to fees and costs, and how much will be invested for me?**

For additional information, please see our ADV Part 2A Firm Brochure – Items 4,5, and 12:

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we must act in your best interest and not put our own interests ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can impact the objectivity of the investment advice we provide you.

Financial Futures earns more fees as your account size increases. As a result, conflicts will arise if we recommend retirement plan account rollovers to an IRA in which we manage. In addition, our financial planning may include a recommendation that you need investment management services. In these situations, Financial Futures' takes its role as your advisor seriously and has implemented controls and mitigation to ensure our clients always receive advice that is in their best interests.
